<p>Roulette (named after the French word meaning "little wheel")

is a casino game which was likely developed from the Italian game Biribi. In th

e game, a player may choose to place a bet on a single number, various groupings

of numbers, the color red or black, whether the number is odd or even, or if th

e numbers are high (19 36) or low (1 18).</p>

<p>To determine the winning number, a croupier spins a wheel in one direct

ion, then spins a ball in the opposite direction around a tilted circular track

running around the outer edge of the wheel. The ball eventually loses momentum,

passes through an area of deflectors, and falls onto the wheel and into one of t

hirty-seven (single-zero, French or European style roulette) or thirty-eight (do) Tj T* BT /F1
